When you think about it, education is all about learning to see things from a different perspective. Jennifer spent 30 years as a teacher and principal doing just that. Now she is schooling her audiences, large and small, with hard-hitting messages about topics once thought of as “soft”. Jennifer will take your organization on a journey that includes laughter and tears as she leaves all participants armed with skills to make an immediate impact no matter what you do. “In order to understand ourselves, others, and the world around us, we need to be able to change and adapt our perspectives.”-A. Einstein
